2006

Happy Year of the Dog!

Chinese New Year begins on January 29, 2006. According to the lunar calendar and Five Elements theory, it is also the start of year 4703, the Year of the Fire (Red) Dog. The Dog person is loyal, honest, caring, and resourceful. S/he inspires others' confidence, is highly principled, and family oriented. Fire Dogs, in particular, make good leaders and have dynamic, charismatic personalities. Those born in 1922, 1934, 1946, 1958, 1970, 1982, and 1994 are Dog people.

Healthwise, the Dog can be very resilient but tends to worry and feel anxious under stress. The best (trioSkincare) gift for that special Dog in your life? A massage session. Treat her/him to an hour of comfort and relaxation and s/he'll say, "Woof"!
