FACIAL OF THE MONTH

The best part of the holiday is the leftovers.
Pumpkin Latté Facial

Mouth watering, skin purifying pumpkin invigorates dull, dehydrated skin. This treatment removes impurities as it delivers pumpkin's botanical repair benefits into the skin. Relax with a shoulder and décolleté massage while a latté firming mask and vitamin rich oxygen cascade deliver more age-fighting antioxidants for silky smooth skin. Roughness retreats to reveal radiance with a complimentary Brow Wax and a Jane Iredale Brow Fix and Clear Mascara. (A \$35.00 Value)

While Supplies Last

The Power of Paraffin

What Are The Benefits Of Paraffin? Warm paraffin treatments rejuvenate, hydrate and nourish the skin beyond your expectations! After a paraffin dip the heat increases the blood supply to the area being treated, moisture is drawn from the underlying layers of the skin, the moisture surfaces and mixes with the essential moisturizers in the paraffin. This fluid is unable to evaporate because of the paraffin glove. It is then infused back into the skin resulting in the most successful way to rejuvenate, hydrate and nourish the skin.

How is it done? Traditional paraffin dips take only a few minutes but have serious sanitary concerns. The risks outweigh the benefits when you are subjected to double dipping with other people's hands and feet. In addition, uncontrolled temperature fluctuations can burn the skin. trioSkincare provides disposable paraffin gloves to guarantee sanitation, temperature control and NO double-dipping! During a Pure Sense Paraffin treatment the skin is cleansed, sanitized, exfoliated and then immersed into a warm paraffin filled spa glove with a personal sanitation seal. A warming mitt or bootie is then slipped over the plastic spa glove to improve heat retention and therapeutic benefits. Relax for 15-20 minutes then the paraffin glove is removed. Treatments conclude with a moisturizing massage, revealing incredibly soft and moist hands or feet! Add to any treatment for only \$25.00. **This month only add to any facial for \$15.00.**

Contraindications

Paraffin treatments are not recommended when the following conditions are present: varicose veins, open cuts and sores, athlete's feet and any other unusual hand or foot disorders. Paraffin treatments are recommended for their hydration and therapeutic benefits for health conditions such as Diabetes, Carpal tunnel, arthritis, bone spurs, eczema, psoriasis and winter chapped skin.
