Host Your Own "Beauty 411 Party"

And reward yourself with a \$500 Service Certificate

What could be a better night out than an evening focused on feeling good and looking your best! Our Beauty 411 Team provides a fun and informative evening complete with finger foods and champagne.

Your interactive evening will include demonstrations and education on Laser, Botox, Fillers, Peels, Facial Services and Skincare Products. Does your group have a particular area of interest? Just let us know. One-night-only special offers are available to you and your guests and best of all...the Host earns Rewards.

Call today to learn more about trio's Beauty 411 Party Program. Parties are available beginning February 2009. Please contact one of our Beauty 411 Coordinators, Rise or Chris for more details.

NEW Peel

ViPeel is making headlines for its dramatic skin improvements in 7 days!

The Vi Peel is creating a big buzz among celebrities and has recently been featured on CBS Channel 7, NBC, In Style and Extra!

As seen by actual before and after photos to the right, ViPeel creates dramatic skin improvements for fine lines, pigmentation, acne, acne scarring and sun damage!

VIPEEL™

Brought to you by trioSkincare's
Experts in Ethnic Skin Care!

trioSkincare is proud to offer this revolutionary service. The Vi-Peel is a breakthrough in facial rejuvenation and chemical peels. This peel combines phenol acids, Vitamin C and Retin-A. Together, these ingredients deliver a procedure that creates a big result but more importantly it is safe for all skin types including skin of color.

Until now, high powered peels and laser procedures have carried risks of hyper-pigmentation for diverse complexions. trioskincare's medical aestheticians are specialized in ethnic skincare and have an arsenal of successful treatment options, however, this is the first intensive peel for skin of color that we have found can and will create significant skin improvements in a single treatment. The peel works gradually over five to seven days, clearing acne, acne scarring, fine lines, age spots, hyper pigmentation, melasma and sun damage. The Vi Peel is so unique because it is highly effective, safe for all skin types, has a virtually pain free application process and has no significant downtime.

Call today for your appointment, we guarantee you will see improvements in your skin in less than 1 week!

VIPEEL™

Introductory Offer

\$275.00

Regularly \$375.00

Each Vi Peel purchase includes a 2 day post treatment application of Retin-A and Vitamin C and 2 post treatment products Vi Derm moisturizer and Vi Derm SPF30.
Offer expires 01/31/09

Anti-Aging
The Vi Peel penetrates into the skin to reverse the effects of sun damage and time. The peel can be used to treat wrinkles and discoloration of not just the face, but other parts of the body as well, such as the hands, décolletage and neck.

Acne
The Vi Peel is highly effective at clearing acne, as you can see on the photos to the left. Results are very quick! The peel can also be used to decrease the appearance of acne scarring.

Comfort & Convenience
An application of the Vi Peel is virtually pain-free! A handheld fan may be used to increase comfort. You may feel a tingling sensation as the peel is applied.

The procedure is quick and takes only 20 minutes or less. There is no required downtime as long as you are comfortable with peeling in public! Healing time is minimal and you will enjoy new beautiful skin in about one week!
