FACIAL OF THE SEASON

Experience a trip to the tropics with a

Maui Spa Facial

Offering the most advanced defense against UV exposure, this Hawaiian treatment lavishes your skin with protective vitamins and antioxidants. The gentle enzyme action of pineapple provides just the right exfoliation while infusing important skin nutrients of Yam Extract, D-Rutin, Allantoin and Vitamin E. The blending of these and other organic multi vitamins, humectants and essential oils has supportive anti-aging benefits that leave the skin refined. We guarantee you and your skin will feel exotic and refreshed.

Available this month for \$99.00

The facial of the season always includes Face, Neck and Decollete

MASSAGE OF THE SEASON

Let us take you away with a

Cabana Massage

In the traditions of Hawaii, smooth heated basalt stones in a fresh ginger infusion achieve a healing, centering, and rejuvenating treatment for muscle tension to melt away. Enjoy this 80 minute relaxing full body retreat while listening to the sound of soft waterfalls and babbling brooks as if you were relaxing under your own private poolside cabana. A final coconut cucumber mist and warm towel foot wrap leave you lingering in a pool of relaxation.

Available this month for 99.00

Add a Paraffin hand or foot treatment for an additional \$15.00

PRODUCT OF THE MONTH

“Your sunscreen may be protecting you from burning but is it protecting you from environmental aging?”

More Than You Ever Wanted to Know About Sunscreen

Are you aware that 90% of the wrinkling of the skin is due to over exposure to the sun? Our outward skin appearance ages more from the elements it is exposed to than it does biologically and physiologically. The best anti wrinkle cream available is a good chemical free sunscreen. The best protection is a physical block that is natural, such as titanium dioxide, zinc oxide, and iron oxides. Titanium dioxide and zinc oxide also provide anti-inflammatory benefits to the skin. Always check to make sure your sunscreen protects from UVA and UVB radiation. Look for the term Broad Spectrum Sunscreen. Beware that regardless of the advertising no sunscreen product screens out all UVA rays, and most render no protection at all to the UVA solar light that is most damaging to the skin. Plus there is no approved system to rate UVA protection. SPF factors on the other hand only rate the sunscreens ability to absorb UVB (burning) rays. The use of sun protection and a physical block, such as mineral powders are an extension of good skin care and are a necessity. Sunscreens have been discussed in regard to aging but it is important to realize the importance sun care plays in the prevention of skin cancer. Young people are developing melanoma; basil cell carcinoma is on the rise and our sun radiations content is higher than ever due to the depletion of the ozone. **BEST ADVICE, WEAR SUNBLOCK DAILY!**
