FACIAL OF THE SEASON

Your skin won't want to miss out...

Pumpkin Refresher

Beautifying your skin can now be a feast for the senses with the seasons Pumpkin Refresher Facial. This facial treatment exfoliates and rejuvenates the skin while delighting you with rich pumpkin pie aromas. The powerful infusion of Vitamin A, Beta Carotene and Zinc makes our Pumpkin treatment an important part of cellular health and the first step to getting your skin back on track before the cold winter month. This facial delivers a recipe for natural beauty you won't be able to resist.

Available this season for \$99.00

The facial of the season always includes the Décolleté! A \$50.00 Value.

MASSAGE OF THE SEASON

Relax and Rejuvenate with a

Golden Harvest Massage

The kids are back to school, so why not slip away for an hour and half of relaxation & pure pampering to refresh & de-stress you. This is the ideal treatment when life is busy and you need to re-energize. 60 minutes of pure massage bliss is followed by a combination of warm and cool body therapies to hydrate, firm and detoxify the skin. A truly incredible experience to relax, revitalize and balance mind and body, using massage, steam, cool wraps and clay.

Available this season for 99.00

The massage of the season includes an amazing value added experience.

PRODUCT OF THE MONTH

Peptide Serum

Reduce wrinkle density and increase skin firmness with Peptide Serum.

Peptides have beneficial effects on skin healing and the production of key skin components. Combined with ingredients that provide instant firming and help the skin to retain moisture and oxygen content, Peptide Serum is an important step in any aging skin care regime. Daily use of this serum will reduce wrinkle density and volume in the skin. Results are enhanced when combined with Growth Factor Serum – a dynamic team for youthful skin. For additional information on Peptides see article on page 2.

Peptides

The New “It” Word in Anti-aging Skincare

Peptides are the new IT word in anti-aging skincare. Copper Peptides, Amino polypeptides, hex peptides, pent peptides, neuro peptides; the list is virtually endless and very confusing to the non-biochemist. So let's simplify their function in your skin and explain the benefits you receive from them.

A peptide is a small protein which is made of amino acids. They are very active at very small doses and support skin healing and the synthesis of skin components. In the body, if the skin is damaged for any reason, structural proteins are destroyed and peptides are released. The skin interprets these peptides as a signal that it has to make some more proteins. Peptides influence the “type” of protein and the “way” a protein is made.

Many peptides emerging into the market are not FDA approved and while some may deliver results, scientific data is not available to support the company claims. Copper peptides have been used in the medical field since the 1970's for wound healing. Palmitoyl Pentipeptide-3, trademarked, Matryxil™ has received great recognition for its ability to thicken the skin and reduce overall roughness and deep facial wrinkles. Both are FDA approved and both have scientific support. Under these peptides influence the skin synthesizes collagen I, III, and IV playing a vital role in the reduction of wrinkle density and volume. These peptides also stimulate the production of fibronectin, a very important glycoprotein that cover the entire cell wall and is vital to the skins wound healing process and overall cell stability. The peptide Matryxil™ has been shown to achieve these results 1.5 times faster than retinol (Vitamin A) and without the inflammatory reactions frequently associated with retinol treatment. This is great news for individuals with Retinol sensitivities. However, one does not replace the other. The best skin rejuvenation program will arise from a combination of treatments including Peptide, Retinol and Epidermal Growth Factor support.

“Add a Peptide boost to your homecare with Cosmedix Radiance (copper peptides) and Rhonda Allison's Peptide Serum with Matryxl™.”

A Remarkable Cosmetic Innovation

Created as a gift for one special women,
RevitaLash is now available to women & men of all ages.

The story.....

RevitaLash was developed by Michael Brinkenhoff, M.D. as a special gift for his wife Gayle while she was recovering from breast cancer. Intensive chemotherapy treatments had damaged her lashes, leaving them fragile, sparse and thin.

Based on his knowledge and experience as an ophthalmologist for over 25 years he believed he could develop a formula to give renewed strength and beauty to eyelashes. After extensive research and with a talented team of cosmetic chemist, RevitaLash was created, a product that restored Gayle's eyelashes.

*Results are seen in a little as 2 weeks with nightly use.
At 6 weeks you will be absolutely amazed.*

"I think the wonderful vitamin serums and growth factor serums have made my skin super healthy and better hydrated....."

Hi Chris!

Oh my gosh, I had to email you. I got my wonderful mask kit in the mail yesterday and decided to try *Impure Mask* one more time. I thought I would try a little spot on my cheek to see if I would react again. I put it on and it didn't burn at all so I decided to go ahead and put it over my entire face. Not only did it not burn, but my skin felt refreshed and wonderful afterwards. I kept asking myself, why didn't I have a problem this time? I started thinking about the first time I tried *Impure*. At that time I was using only 1 or 2 Rhonda Allison products. This time I am using all Rhonda Allison products and I think the wonderful Vitamin Serums (Super C and Antioxidant Complex) and the Growth Factor Serum have made my skin super healthy and better hydrated so that now a product like *Impure* can go in and do what it needs to do without a reaction. I called Rise and told her and she agreed. I cannot believe how wonderful these products are. The *Growth Factor Serum* has improved my eczema patches. They are virtually gone. I was putting hydrocortisone cream on it before and it still wouldn't go away, *Growth Factor Serum* has healed it. I love you guys for setting the bar so high for great skin care and going out and researching and working so hard. You guys are the best!!!
