### Consultation

Laser & Injectable Consultation Complimentary  
Surgical Consultation \$125.00

**Botox** \$12.00 per unit  
BOTOX® Cosmetic is a prescription medicine that is injected into muscles and used to improve the look of moderate to severe frown lines.

**Cosmetic Fillers** starting at \$540.00  
Used for correction of moderate to severe facial wrinkles and folds (such as nasolabial folds), lip enhancement and lines. We provide Juvederm Ultra, Juvederm Plus, and Juvederm XC products. Juvederm is the only hyaluronic cosmetic filler approved to last up to one year.

### Sciton Laser System:

Sciton is the most versatile laser technology on the market for wrinkle reduction, skin tightening, removal of broken capillaries, brown pigment, scarring, hair removal and more. Affordable treatments offer short recovery time with long term results. Complimentary consultation is available to discuss procedures and pricing.

### Laser Hair Removal Pricing Available at Front Desk

---

**Fotofacials** starting at \$200.00  
Improve the appearance of Rosacea, flushing, sun damaged skin, age spots, skin texture, and photo aging. If you seek a more even complexion, this treatment involves little or no down time. You can resume normal activities immediately.

**Micro Laser Peels** starting at \$250.00  
A laser beam is scanned across the treatment area and precisely removes a layer of skin. The body will naturally replace the old, damaged skin with a fresh, healthy layer. Treatments can range from shallow (which might be appropriate for eliminating fine lines, sun spots and tired-looking skin) to deep (which is often used to improve skin tone/texture and eliminate deep wrinkles, even in difficult areas like upper lip lines and crow's feet).

**ProFractional** starting at \$700.00  
In fractional resurfacing, the laser removes pinpoint columns of skin, leaving the surrounding tissue intact. This approach allows the laser to penetrate very deeply for effective collagen remodeling, while the surrounding intact tissue promotes rapid healing. The best of both worlds this incredible laser treatment delivers results and minimal downtime, effectively treating a wide variety of conditions.

**SkinTyte** series starting at \$1600.00  
Tightens loose skin on the face, neck, arms and abdomen, promoting collagen remodeling. This treatment tightens and tones the skin to improve its overall appearance.

Series pricing is available for all services offered. Please consult with a skincare specialist to discuss your recommended treatment plan and series pricing.

### Aesthetician Peels

These specialized Aesthetician Peels increase collagen production and are used for a variety of skin problems including hyper pigmentation, acne and scarring. Peels are best done in a series for maximum results. Peel intensity is determined during your peel consultation and is based on sensitivity, severity of condition and lifestyle factors.

Progressive Peels \$115.00

Safe, no down time peels that support the health of the skin. But don't under estimate their potency. Recommended every 2 weeks.

Mid Depth Peels \$195.00

The acids used for these treatments can vary depending on skin type and tolerance. Quick recovery with little to no down time. Recommended every 2-3 weeks.

Intensive Peels starting at \$275.00

Intensive Peels are the most aggressive of the Aesthetician Peels, providing significant changes in skin composition. This is the real peel deal. There will be down time. (**Vi Peels** - \$375.00 & Up)
